

TYRE RESPONSE
GROUP

CAPABILITY BROCHURE

A photograph of a worker in a yellow safety vest and hard hat working on a large industrial pipe. The worker is positioned on the right side of the frame, and the pipe is the central focus. The background is a bright yellow color, which is part of the overall design of the page.

**A set of values
underpin the ethos
of TRG.**

**They are who we are.
They are why we are.**

Australia's newest Tyre Management company is here.

With a team of highly skilled professionals, Tyre Response Group will partner with you to achieve your specific cost and productivity targets. Our total independence from any tyre manufacturer means you only get the very best tyre for the job. We then get to work, extracting maximum value from that tyre by providing world class tyre management.

We will do everything in our power to reduce your total cost of tyre ownership. Safely. That's our guarantee to you.

Safety and Environment

An overriding commitment to working safely, taking care of each other and preserving the environment.

Integrity and Ethical Behavior

Honest, reliable and professional in all that we do.

Co-operation and Teamwork

Working together effectively with all stakeholders to deliver superior outcomes

Value Creation and Client Relationships

A clear focus on creating shareholder value and exceeding client expectations.

Our People are Our Advantage

Investing in individual development and giving respect, recognition, encouragement and direction through positive leadership.

Innovation

Willingness to challenge conventional thinking and a passion to inspire positive change.

What We Do

Always Striving For Better.

Proudly led by Basil Winterbourn, founder of Otraco International, and backed by a leadership team with over 100 years industry experience, TRG is built on the back of hard work and a strong safety and performance culture.

Completely independent of any tyre manufacturer and determined to do things better than the rest, our vision is to be the industry leader in Off-The-Road tyre management and maintenance services.

Our mission is to deliver a best-in-class tyre management service to our clients, adding value to their business through rigorous safety and environmental management, driving productivity and asset optimization and providing a positive working culture for our people.

We believe employees are our greatest asset and TRG back that up by sharing our success with our people. An innovative employee share scheme allows us to attract and retain only the very best tyre technicians, providing an on-site workplace where our people are motivated to do the job well and more importantly, safely.

Outstanding customer service and delivery is what we strive for at TRG. A company created by tyre people for tyre people.

Contract Labour

TRG can offer direct labour for tyre fitting and supervision. With our knowledgeable, experienced manpower we can mobilise teams quickly, effectively and professionally.

Full Service Tyre Management

TRG will develop a tailored tyre management solution for your sites providing a cost effective method for delivering on expectations. Services include technical studies, reporting and database provision.

Consulting

Whether setting your procurement strategy, optimising your supply chain logistics, conducting site audits or managing your third party vendors, TRG can support you with its experienced consulting services.

We Understand Tyres

Tyres can account for up to a third of a mine's operating expenditure which is why TRG are committed to minimizing tyre related costs and maximizing equipment availability. We don't overcomplicate things, we simply focus on our customers' expectations and deliver outstanding service. We are there to save you money by managing your tyre operations safely and effectively, it's as simple as that.

OTR Tyre Management – The TRG Way

A proactive can do approach to extending your tyre life.

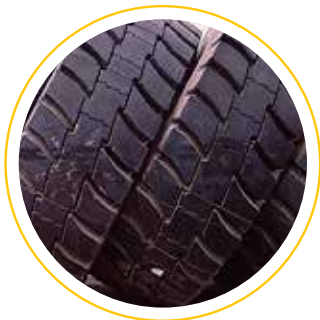

Tyre Maintenance

Proper maintenance can extend tyre life dramatically. Tyre rotations, repairs, matching and constant monitoring by highly trained technicians are key elements of TRG's tyre maintenance program. Machine downtime due to tyre maintenance is kept to a minimum by working closely with the client to schedule in tyre work wherever possible.

Operating Conditions

TRG personnel will carry out regular pit inspections and monitor mine road maintenance, recommending improvements to reduce tyre costs and machine downtime.

Tyre Selection

Selecting the right tyre for a particular application will make a significant difference to the profit of a mining operation. Totally independent of any tyre manufacturer, TRG will recommend only the best suited tyre for the application. You retain full responsibility for tyre purchasing.

Pressure & Tread Depth Maintenance

Expert tyre technicians will carry out stringent pressure control and maximize tread life by identifying and correcting abnormal wear patterns. Correct tyre pressures are absolutely critical for optimal equipment performance.

Tailored Solutions To Suit *Your Business*

At TRG, we understand not all clients are the same which is why we have tailored solutions to suit your specific on-site requirements.

Quality Workforce

We only hire the best of the best so you can be confident TRG personnel on your site are not only fully trained to do the job safely but are experienced and able to carry out tyre maintenance work with minimal supervision.

All our tyre technicians are Cert II qualified backed by industry recognized Safe Work Procedures. We regularly recertify and train our people by conducting in-field competency evaluations to ensure tasks are being performed safely and to Standard.

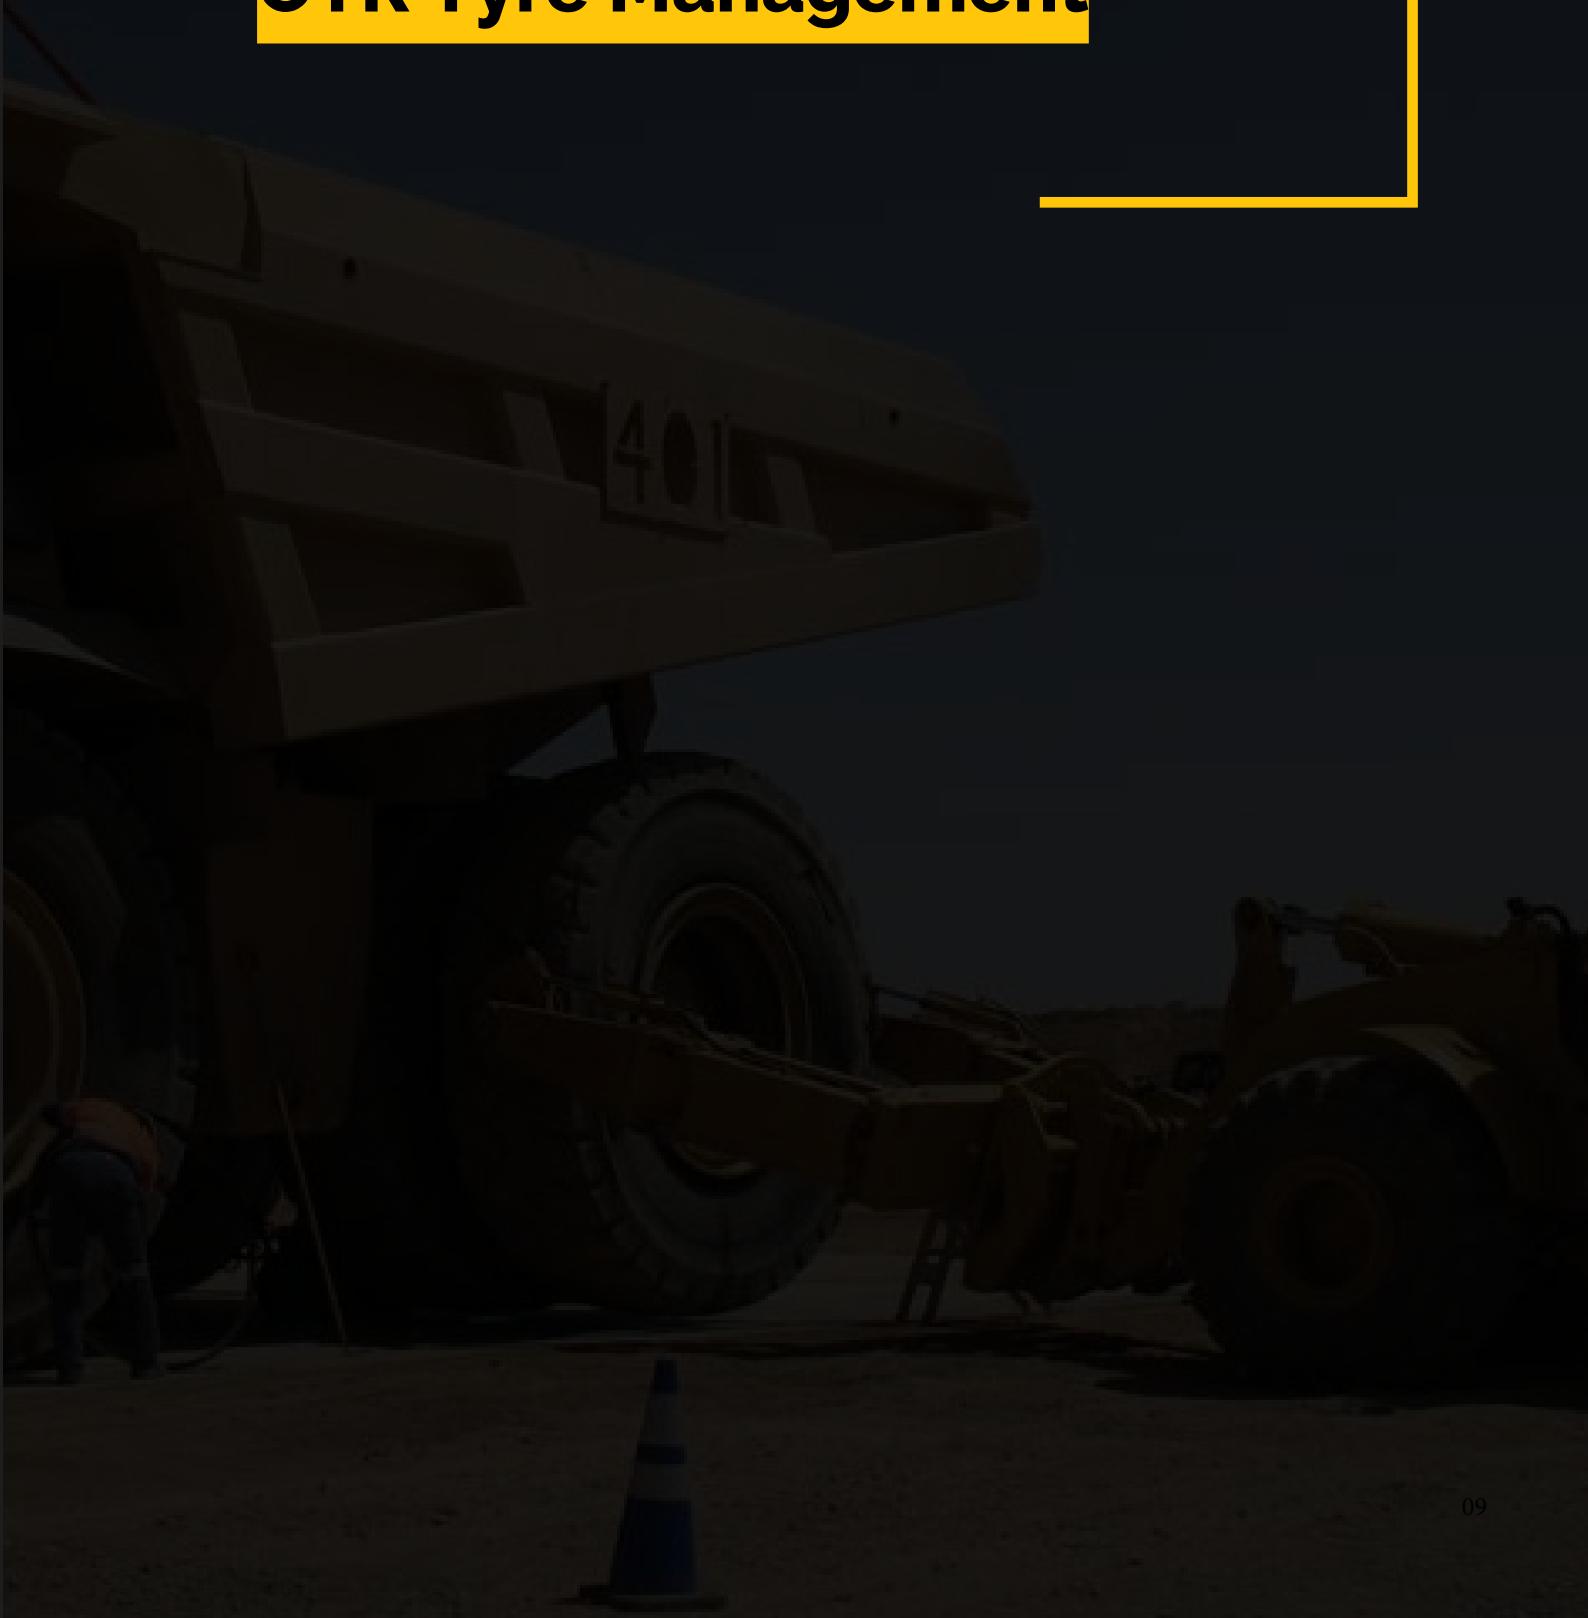

Flexible & Agile

Whether you are looking for full-service tyre management or simply needing to hire one of our fully trained tyre technicians, TRG have you covered.

One of our major strengths is our ability to mobilise quickly, providing experienced and skilled manpower for your project.

Not just another labour hire business, TRG actually specialise in OTR tyre management, adding significant value to our clients operations.
