CAPABILITY STATEMENT

INDEPENDENT TYRE MANAGEMENT SOLUTIONS

About TRG

Backed by an experienced and innovative leadership team, TRG is built on the back of hard work and a strong safety and performance culture.

Completely independent of any tyre manufacturer and determined to do things better than the rest, our vision is to be the industry leader in Off-The-Road tyre management and maintenance services. As a Registered Training Organisation (RTO), we deliver both internal and external, fully-certified programmes supporting our workforce development and ensuring a consistent and reliable service delivery.

We believe employees are our greatest asset and TRG back that up by sharing our success with our people.

An innovative employee share scheme allows us to attract and retain only the very best tyre technicians and supervisors, providing an on-site workplace where our people are motivated to do the job well and more importantly, safely. The 'TRG Family' culture is the driving force behind our success and our 'Mateship' program ensures the wellbeing of each team member both physically and mentally.

Outstanding customer service and delivery is what we strive for at TRG. A company created by tyre people for tyre people.

TRG is an ISO 9001 Quality Management Systems certified company.

Our Mission

To provide exceptional tyre management services that enhance safety, drive sustainability, optimise productivity, and maximise asset performance, all while cultivating a positive and empowering workplace culture.

**100%
Australian
Owned**

Headquartered in Perth, Western Australia, TRG is an Australian owned and operated business drawing on extensive industry knowledge to set new benchmarks in the management of Earthmover tyres.

TRG Expertise

TRG delivers an ISO accredited independent tyre management service based on our class-leading Tyre Management Plan (TMP). With our global experience in all aspects of OTR Tyre Management, we can identify and assess issues before they impact our client's business.

The TMP is a highly developed and integrated system, designed to meet our primary objective of minimising our clients' total tyre costs, and to fulfill all our secondary goals. Our approach to delivery is holistic, and we embed ourselves within our client's business and culture to maximise benefits.

- Industrial tooling and equipment supply and servicing
- Asset supply and maintenance
- Environmental compliance and regulatory administration
- Auditing and quality assurance reviews

Why TRG?

TRG has developed its business with the simple goal to provide the best levels of customer engagement and service and to be a business for our employees and our customers in equal measure. We are viewed by the Australian mining community as a Top Tier supplier of choice for tyre management, training, and consulting. Our clients recognise the value we place on being a flexible, professional, respectful and committed partner and the way we manage our people and our operations.

TRG

Tyre Management

TRG provides complete 24-hour supported coverage of onsite OTR (Off The Road) and LME (Light Mobile Equipment) tyre maintenance and management for customers across Australia.

Our highly-skilled, certificate-qualified teams combine their technical expertise with a client-focused operational model to help our customers reduce their overall tyre and wheel costs whilst supporting site productivity and asset reliability targets, ensuring a safe and consistent working environment.

Operating on 20+ mine sites across Australia, our team of 100+ tyre fitters are working on a range of equipment and assets from Autonomous Ultra-Class Rigid Haul Trucks to Fork Lifts and standard ute's, backed by our

own Tyre Management Software System, 'TRED' and our team of dedicated professionals in the safety, training and operational support space.

TRG promotes a diverse and inclusive workplace. Our focus on 'The TRG Family' means all are welcome and respected. As a 100% Australian-owned and operated business, the 'Mateship' of our people underscores the cultural values we deliver to our employees as well as our clients.

TRG Training

When you invest in a trained workforce, you're investing in safety and productivity.

Tyre Response Group is a Registered Training Organisation (RTO), delivering accredited training recognised at a national level.

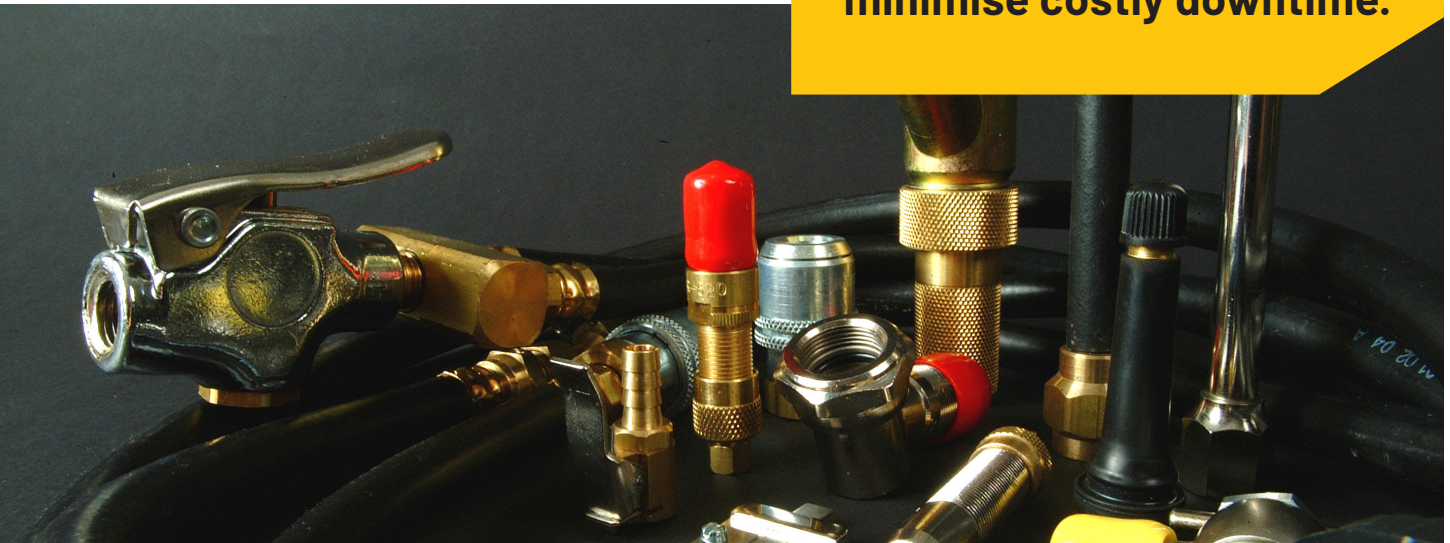

Offering the latest AUR certification, our training programs incorporate competency-based delivery and assessment, and comprise on-the-job training, workshops and classroom learning.

TRG can also deliver an onsite component, training your people on the vehicles and equipment they use every day.

Our experienced trainers and assessors offer bespoke training to operators, production supervisors and maintenance staff that is designed to elevate site understanding of tyres, resulting in improved operational safety, efficiency and reduced operating costs

TRG Industrial

TRG's Industrial Division offer a comprehensive and innovative range of quality tyre accessories, tooling and equipment to keep your machines moving and minimise costly downtime.

Inflation

Offering a complete range of valves and valve accessories, inflators, gauges and o-rings, TRG has your inflation needs covered. Manufactured to the highest standards, all of our inflation products are designed with your safety and smooth operations in mind.

Chemicals

TRG promotes a proprietary range of quality, affordable chemicals to prolong tyre life and make your job of servicing tyres and wheels safer and easier. In wide use across Australia, **WheelPro** is a multipurpose additive that functions as a corrosion inhibitor, tyre coolant, sealant and leak detector. TRG also stocks a variety of different tyre lubricants with our very popular **TyreGel** making mounting and demounting tyres easier, faster and reduces stress and damage to the tyre bead.

Tooling

As the exclusive dealer for ESCO tyre servicing equipment in Australia, TRG carries a wide range of heavy-duty bead breakers, hydraulic rams, air hydraulic pumps, heavy duty jacks and stands, tyre demounting and mounting tools, tyre wheel dollies, torque wrenches, and much more to better aid in safely and efficiently servicing your tyres and wheels.

Engineered Solutions

With its own in-house engineering division, TRG can also offer a range of purpose built, fully-certified equipment to improve productivity and safety, including pre-mounting stands, rim component stands, lock ring racks and tyre inflation cages. Working closely with clients and our tyre fitters in the field, TRG has a strong focus on innovative solutions to improve productivity and safety.
